

Advancing What's Possible

Lexis® is redefining legal intelligence

Step up to better research with innovative search tools, up-to-the-minute news and analysis, and the most powerful analytics available.

Built For How You Work

Confidently leap from inquiry to analysis to insight using flexible, intuitive research tools designed for the way legal professionals work.

COMPREHENSIVE SEARCH ▶

Easily search your way—by entering a citation, terms and connectors or a natural language search ... or by using document parts (segments) in a form-based approach ... or by going right to a topic, practice area or jurisdiction.

No matter how you start, you can easily narrow your results further by jurisdiction, practice area, category, sources, date range, etc., and search within results.

WORK FOLDERS

Organize your matter and collaborate more easily with folders for storing related legal research results in one place.

PRACTICE CENTERS ▶

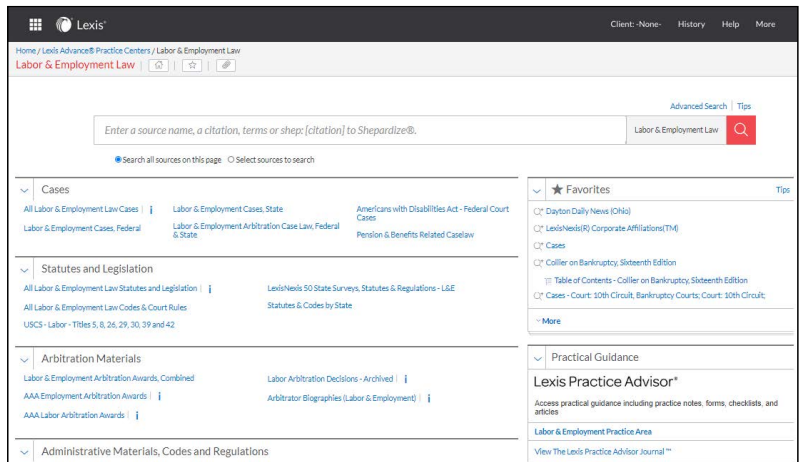

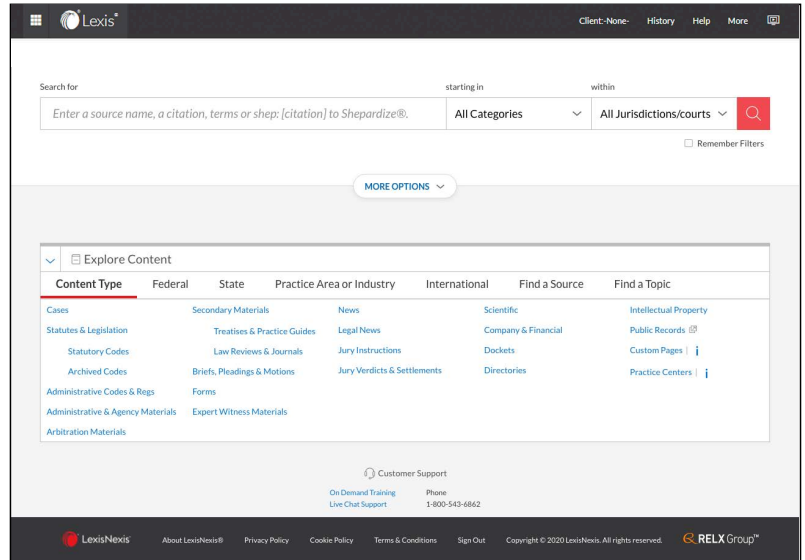

Go right to the top sources for your jurisdiction, practice area or industry—all on one page. Choose from 70 specialized Lexis® Practice Centers, and make the most relevant one your research start page.

CRITICAL ALERTS

Stay on top of the latest changes in a publication or your search results—covering cases, topics, *Shepard's*® analysis, pending legislation, news and more. Share alerts with others inside and outside your organization.

STYLE FORMATS AND ANNOTATION TOOLS

Copy citations for your legal documents and choose from a wide range of official- and jurisdictional-style formats. Plus, highlight portions of a document and annotate them for future reference.

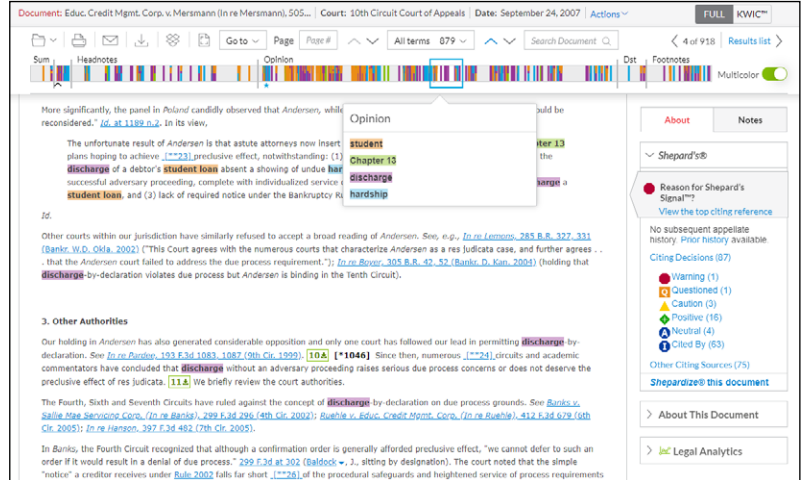

Visualizing Your Search Results

Quickly turn information into insights and insights into action with features that help you visualize your search results and save time.

SEARCH TERM MAPS ▶

See color-coded search terms in helpful patterns and clusters in your case law search result sets and within case law documents. This Lexis exclusive allows you to:

- Preview top search-hit passages throughout a document, including the case summary, headnotes and opinions, and quickly determine if you should view the full text
- See a complete map of search terms in full-text cases to quickly identify where the densest clusters exist and easily navigate to them

RESEARCH MAP

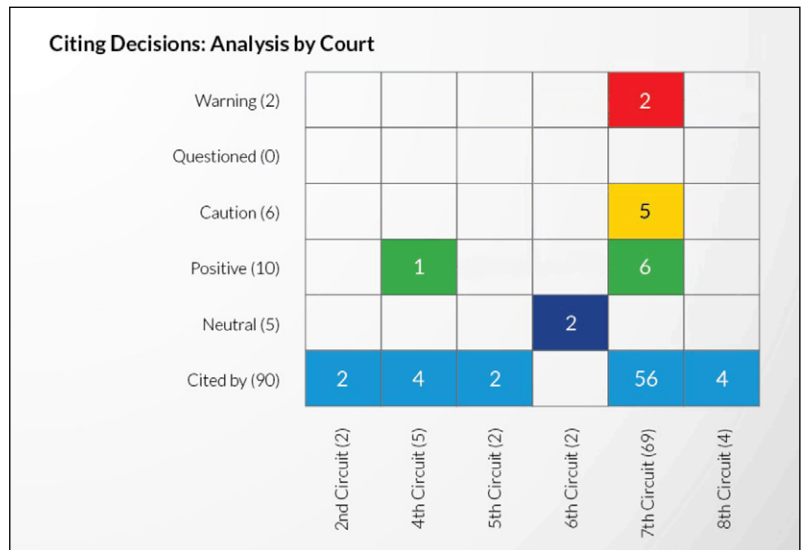

Pick up where you left off—and see how to further your research—with a step-by-step graphical depiction of your prior search history.

SHEPARD'S GRAPHICAL ▶

See citing trends across courts and time periods with the *Shepard's* Graphical feature, a Lexis exclusive.

LEGAL ISSUE TRAIL™

Quickly find connections between cases, helping you efficiently analyze how an issue has evolved over time. Another Lexis exclusive.

Smart Analytics

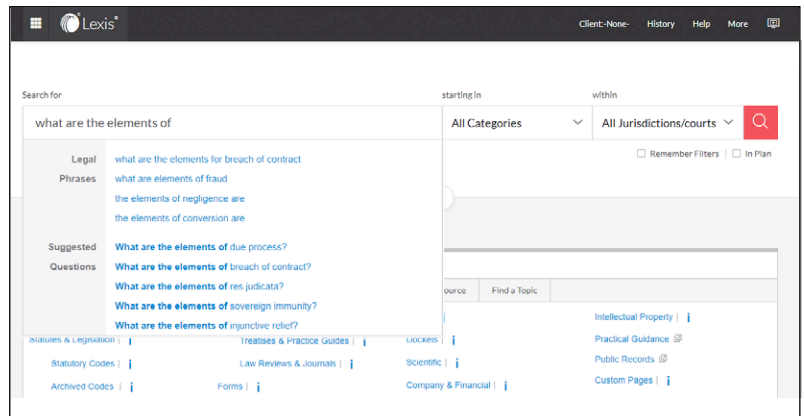

Develop insights faster and more effectively with powerful analytics tools. Lexis Analytics™ tools deliver exclusive, powerful legal analytics solutions.

CONTEXT

Context goes beyond the edge of traditional legal research and uncovers **insights into how a judge thinks and acts**. Using industry-leading technology, language analytics is deployed across millions of case law documents and 100 motion types to pinpoint the specific language, opinions and citations a judge is most persuaded by, and to forecast **how expert testimony will stand up to judicial scrutiny**. Use this LexisNexis exclusive to know the language and cases your judge uses so you draft the most persuasive argument possible.

LEXIS ANSWERS™ ▶

The Lexis Answers™ tool leverages powerful AI technology to understand and anticipate your research—ultimately getting you to more relevant answers, faster. The machine-learning technology behind Lexis Answers understands your question and can even suggest natural-language questions for you. Then it anticipates your research path, curating and delivering answer sets for your question type, so you cover more ground faster, and with fewer searches.

LEX MACHINA®

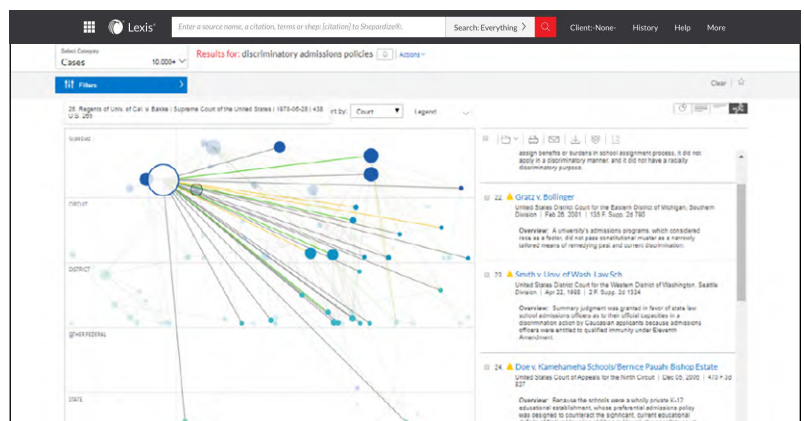

Lex Machina® Legal Analytics® integration can help you fine-tune your litigation strategy. Only at Lexis can you link from full-text Lexis cases to preview summary charts that show:

- Judge caseload by year and practice area
- Average case timing from filing to key events in your judge's court
- Law firm case filings by year and practice area
- Law firm top clients and top filings courts

Plus Lex Machina subscribers can sign in from Lexis for deep judge and law firm analysis.¹

RAVEL™ VIEW ▶

Ravel™ View quickly identifies the most relevant and influential cases from your search results by court level, citation frequency and *Shepard's* treatment—helping you understand your case law search results and find the cases you need to win. This Lexis exclusive leverages visualization technology to analyze your top 75 case law search results and displays the results in one single view, so you can craft your argument knowing you have the most important cases through their connections to each other.

Good Law Made Simple

Count on an extensive editorial analysis of case law, statutes, regulations, administrative decisions and more with *Shepard's* Citations Service, the marketing leading citator for more than 140 years. Available exclusively through Lexis, you can rely on experienced *Shepard's* attorney-editors to provide a full spectrum of editorial analysis.

SHEPARD'S PREVIEW ▶

See the big picture before you view a full *Shepard's* report. *Shepard's* Signal™ indicators—Warning, Questioned, Positive and more—give you a quick look at treatment by the courts.

REASON FOR SHEPARD'S SIGNAL™

Click once from within a full-text case and see the citing reference that had the strongest influence on the *Shepard's* Signal indicator. No other online legal publisher offers this valuable feature.

FULL RANGE OF EDITORIAL ANALYSIS

Unlike other citators, *Shepard's* indicates when a case has been “followed” in whole or in part. You can easily uncover splits of authority and gain additional support you can't find elsewhere.

SHEPARD'S® CASE CARDS ▶

Get more vital case details without leaving your search results screen. *Shepard's* case cards show you the full spectrum of *Shepard's* treatment, the Reason for *Shepard's* Signal language and the most cited headnotes for the case. You can't find that on results screens in other citators.

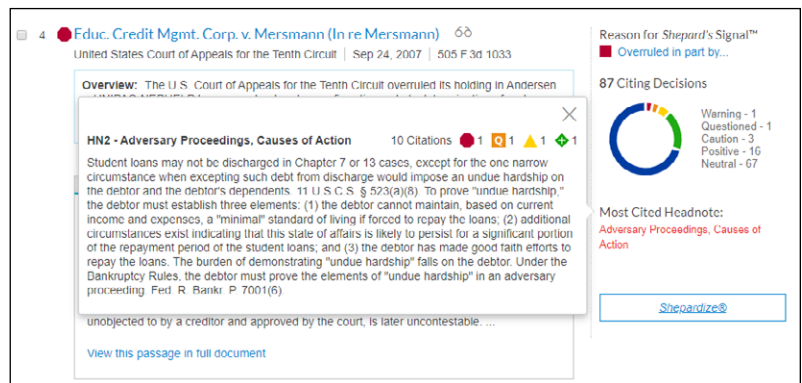

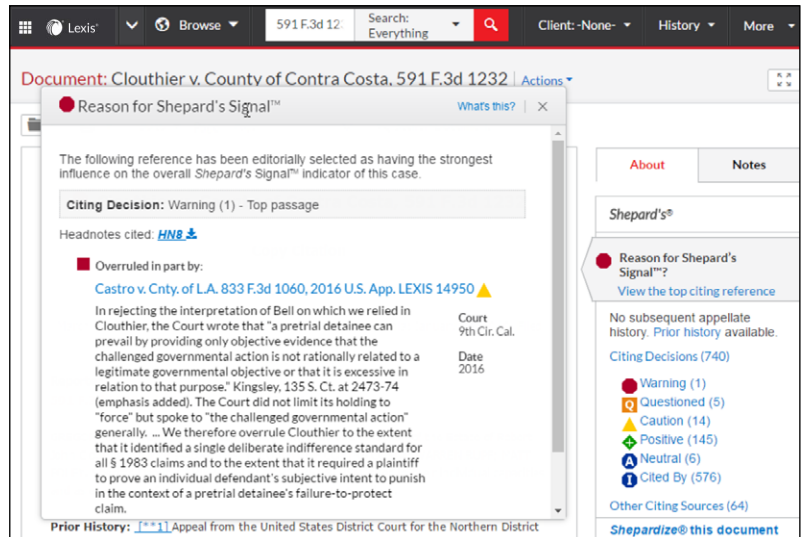

SHEPARD'S® BRIEFCHECK™

Check citations and quotations in briefs, memoranda and more.

- Validate multiple citations and quotations from your document at once with convenient BriefCheck™ reports—even check quotes within statutes and administrative codes.
- Export BriefCheck results to Microsoft® Excel®, if desired, for additional analysis.

SHEPARD'S® BRIEFLINK

Speed your drafting and citation checking by populating Microsoft® Word documents with Lexis links to legal authority cited. You also have the option to include *Shepard's* Signal indicators in your documents.
