

What's new from the LexisNexis® services?

by Nancy Gallenson, manager, LexisNexis Business Insight Solutions

Titles listed below are organized by geographic coverage then alphabetical by title. All titles are linked to their entry in the [Searchable Directory of Online Sources](#). Click to learn more about each title. Go to <http://www.lexisnexis.com/newsandbusiness/content/> for the entire archive of news and business content additions back to 2005.

Highlights

This update includes the return of *Frankfurter Allgemeine Zeitung*, the preeminent German-language newspaper, to the LexisNexis® services. Also noteworthy is *NetProspex*, a contacts database for B2B professionals. We have added 17 White Digital Media publications that deliver digital news and information for business professionals and global reviews for operations, technology, finance and leadership. A focus on Asia brings new English-language titles published in a variety of countries including Sri Lanka, Afghanistan, India, Pakistan, Nepal, Bahrain and Bangladesh. And for the Middle East we have added 49 Arabic-language publications to the LexisNexis services.

Global

[Construction Digital](#) provides news and information for construction professionals focused on all aspects of managing the construction industry. Construction Digital covers industry-specific issues including: green building; building technologies; project management, design and engineering.

[Energy Digital](#) is designed for business professionals focused on all aspects of managing the environment. It covers industry-specific issues such as: renewable energy; global operations; exploration & production; and green business.

[Engineering, Construction and Architectural Management](#) publishes papers on innovative developments in the management and practice of construction, and original research work in all aspects of construction management. The journal is international and publishes papers from North and South America, Europe, Asia, Australasia, Africa and the Middle East, reflecting the global nature of the construction industry and the research that supports it.

[Executive Digital](#) provides news and information for C-level executives across the world. It presents the latest trends in business and lifestyle. It focuses on business and industry-specific issues such as: leadership; technology; professional services; and strategy.

[Food & Drink Digital](#) covers industry-specific issues such as: drinks; food equipment; food manufacturing; health foods and drinks; ingredients, hotels; restaurants; and more.

[Healthcare Digital](#) covers solutions that enable global healthcare executives to improve the way they manage their operations. It provides information on industry-specific issues such as: finance & insurance; health service; hospitals; medical devices; and pharmaceuticals.

[International Journal of Energy Sector Management](#) facilitates the dissemination of research on issues relating to supply management (covering the entire supply chain of resource finding, extraction, production, treatment, conversion, transportation, distribution and retail supply), demand and usage management, waste management, customer and other stakeholder management, and other solutions. The journal covers all forms of energy (non-renewable and renewable), forms of supply (centralized or decentralized), ownership patterns (public or private, cooperative, joint, or any other), market structures (formal, informal, integrated, disintegrated, national, international, local, etc.) and degrees of commoditization (e.g., internationally traded, regionally traded, non-traded, etc.).

International Journal of Industrial Engineering Computations focuses on recent advances in computational methods to solve various complex problems. The journal provides a forum to discuss the basic theories underlying industrial engineering techniques and covers various fields of industrial engineering such as scheduling, supply chain management and logistics, layout facilities, quality control, process engineering, operations management, simulation, game theory, maintenance, reliability, and econometrics.

International Journal of Numerical Methods for Heat & Fluid Flow provides applied mathematicians, engineers and scientists engaged in computer-aided design and research in computational heat transfer and fluid dynamics with timely and accessible information on the development, refinement and application of computer-based numerical techniques for solving problems in heat and fluid flow.

International Journal of Pavement Research and Technology provides a platform to promote the exchange of ideas among pavement engineering communities around the world. The journal disseminates information on all aspects of pavement engineering and technology developed through research and development and practical experiences.

International Journal of Pharmaceutical Sciences Review and Research is an open-access, bi-monthly published, peer-reviewed, international online journal.

International Journal of Pharmacology and Biological Sciences is a peer-reviewed international journal that publishes innovative research works in the fields of pharmacology and biological sciences.

International Journal of Structural Integrity is published in partnership with the European Aeronautics Science Network and brings together academic and industrial research in the area of damage-tolerance design and structural integrity.

International Journal of Vehicle Structures & Systems is engaged in the promotion and advancement of technical education and research in the field of mechanical, aerospace and other branches of engineering.

Journal of International Environmental Application and Science is dedicated to detailed and comprehensive investigations, analyses and appropriate reviews of the interdisciplinary aspects of renewable sources, municipal and industrial solid wastes, waste disposal, environmental pollution, environmental science and education, biomass, agricultural residues, energy sources, hazardous emissions, incineration, environmental protection topics including experimental, analytical, industrial studies, hydrological recycling, water pollution, water treatment, air pollution, gas removal and disposal.

Journal of Pharmaceutical Sciences and Research is an international peer-reviewed multidisciplinary online journal published monthly. Fields covered include pharmaceuticals, pharmaceutical technology, pharmaceutical analysis, biopharmaceuticals, pharmacokinetics, pharmacology, toxicology, genomics and proteomics, pharmacognosy and phytochemistry.

Manufacturing Digital is designed for manufacturing professionals and executives. It provides solutions that enable global business to improve the way they manage their operations, people, technology and supply chain, and covers industry-specific issues such as: automotive; aerospace & defense; chemicals & plastics; consumer products; electronics; logistics; metal & machinery.

OurPlanet is the United Nations Environment Programme's flagship magazine, reporting on environmentally sustainable development around the world.

Retail Digital is a source of news and information for retail professionals and executives responsible for all aspects of this industry. Retail Digital focuses on business and industry-specific issues such as: department stores; fashion; general merchandise; luxury fashion; and health & beauty.

Stock Market Digital focuses on business and industry-specific issues including: listings; market leaders; NASDAQ®; NYSE; professional services and trading technology.

Supply Chain Digital is designed for supply chain business professionals and is focused on business and industry-specific issues such as: logistics and distribution; procurement; warehousing and storage; and outsourcing.

[Technology Digital](#) is designed for technology professionals and executives responsible for all aspects of the industry. It focuses on business and industry-specific issues such as: data centers; laptops; mobile computing; operative systems; Internet; IT leadership; lean IT; and software.

[Technology Review](#) identifies emerging technologies and analyzes their impact for technology and business leaders—the senior executives, entrepreneurs, venture capitalists, engineers, developers, and researchers who create and fund the innovations that drive the global economy. Topics include computing, Web, communications, energy, materials and biomedicine.

[TendersInfo—Contract Awards](#) is a comprehensive daily source of contract awards notices relating to international tenders, bids, RFPs and contracts from the public procurement domain worldwide.

[TendersInfo—Project Notices](#) is a comprehensive daily source of project notices from multilateral funding agencies, federal, state & county governments, utilities, hospitals, schools, ports, NGOs, etc.

[Turtle and Tortoise Newsletter](#) is an international newsletter of chelonian conservationists and biologists, dedicated to providing an open forum for the timely exchange of information on freshwater and terrestrial turtle and tortoise conservation and biology issues.

North America

[Academy of Health Care Management Journal](#) publishes practical, theoretical and empirical works on management and marketing for health-care providing institutions.

[Adhesives & Sealants Industry](#) offers useful information targeted toward global manufacturers, formulators and end users of adhesives and sealants, pressure-sensitive and other adhesive/sealant products.

[Adultspan Journal](#) is a scholarly journal publishing current information about research, theory, and practice in the field of adult development and aging. Emphasis is given to developmental principles and concomitant counseling implications.

[Alternatives Journal](#) is Canada's national environmental magazine, delivers thoughtful analysis and intelligent debate on Canadian and world environmental issues, the latest news and ideas, as well as profiles of environmental leaders who are making a difference.

[Appliance Design](#) is devoted to providing solutions for design and engineering teams in the global, commercial and medical appliance/durable goods industry. Appliance Design is for those who are involved in the design of products used in HVAC, major appliances, housewares/portable appliances, commercial appliances, vending machines/kiosks, medical, test, measurement/laboratory equipment, business appliances, consumer electronics, and product development/industrial design firms.

[Assembly](#) serves the information needs of manufacturing professionals responsible for engineering and managing product assembly operations throughout the Original Equipment Market (OEM). The magazine's objective is to help them make assembly-related decisions and develop solutions to assembly problems.

[BioCycle](#) is a magazine on composting and organics recycling. BioCycle shows you how to turn organic residuals—woody materials, yard trimmings, municipal solid waste (MSW), food residuals, biosolids, manure and other feed stocks into value-added products.

[Bloomberg: Surveillance MIDDAY](#) provides the transcripts of in-depth interviews with economists and strategists.

[Business Review Canada](#) is designed for business professionals in Canada and provides information on all business-related issues including technology, operations, finance and leadership.

[Business Review USA](#) is designed for business professionals in the United States and provides information on all business-related issues including technology, operations, finance and leadership.

[Casual Living](#) covers the casual furniture industry. It serves all retailers, designers and contract hospitality buyers that sell or buy casual furnishings and accessories as well as the manufacturers and suppliers to the industry.

[CircuiTree](#) is a source of information for the printed circuit board industry. The editorial focuses on information for circuit board fabricators, their suppliers and OEM customers with purchasing authority for products such as fabrication equipment, fabrication materials, fabrications services and PCBs.

Convenience Store News for the Single Store Owner is the industry's first and only publication focused solely on independent c-store retailers. Its mission is to deliver the insight, analysis, market research and business intelligence to help single-store convenience retailers grow sales and profits.

Electrical Apparatus is a magazine that covers the fields of electromechanical and electronic application and maintenance—the “electrical aftermarket” that serves as the electrical industry’s “field laboratory” and is its second-largest market (after OEMs).

Energy and Power Engineering publishes research and review articles in all important aspects of electric power engineering and other professionals involved in the electric power industry.

Energy Law Journal publishes legal, policy and economic articles and other materials of interest with significant research value on subjects dealing with the energy industries.

Engineered Systems provides smart, sustainable solutions for mechanical engineering projects. Whether it's a renovation or new construction, ES delivers new ideas to help commercial, institutional, industrial, and government buildings achieve LEED and Energy Star certification.

Engineering is an international journal dedicated to the latest advancement of engineering. The goal of this journal is to provide a platform for engineers and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of engineering.

Executive Counsel is a business law resource magazine for CEOs, CFOs, General Counsel and other C-Level decision makers at the 10,000 largest companies in the U.S. Articles are written exclusively by practitioners, including lawyers, academics and consultants. The magazine's mission is to explain how changes in laws and regulations affect business strategies.

Freedom Watch is a political news show on Fox News® hosted by former Superior Court judge Andrew Napolitano. Discussion and commentary comes primarily from the Libertarian point of view, with a focus on smaller government and individual liberties. Business topics including economic liberties and consumer rights are also covered.

Furniture Today is devoted to covering the furniture industry's current events, trends, who's who, research information and how to keep a retail furniture store in business.

Generations is a journal of the American Society on Aging, the largest membership association for professionals in the field of aging in the United States. Each issue brings together the best and most useful information about a key topic in aging, with an emphasis on the latest developments in the areas of practice, research and policy.

Gerontological Nursing Association. Perspectives addresses issues identified by our members as key to gerontological nursing practice.

Gifts & Decorative Accessories serves retailers, manufacturers, and vendors of general gift products, decorative accessories, stationery, greeting cards, collectibles, personal care products, jewelry and gourmet food items.

Government Executive is designed for senior managers and executives in the federal government. The magazine covers developments affecting the organization and management of the executive branch; helps federal executives and their agencies improve the quality of the services they provide by reporting on management innovations; explains agencies' problems and failures in a way that offers lessons about pitfalls to avoid; creates a greater sense of community among the elite corps of public servants to whom the magazine circulates; and helps to improve the image of public service by teaching non-government readers about the challenges federal officials confront.

Home Accents Today is dedicated to two major groups of readers—the accessory buyers for furniture stores (or in cases of smaller stores, the owners and/or merchandise managers) and the owners/buyers of home accent specialty and gift stores. Its readers also include owners/buyers of garden centers, lifestyle stores (stores like Crate & Barrel®, Pier 1® and Pottery Barn®), interior designers and manufacturers / vendors.

Home Textiles Today is designed for top executives in the home fashions marketplace. Its audience is comprised of manufacturers, retailers, and suppliers looking for the latest in designs, trends, and industry news.

Integrated Environmental Assessment and Management is designed to bridge the gap between scientific research and the use of sound science in decision making, regulation, and environmental management. IEAM presents new information, promotes dialogue, and fosters new methods for analysis of biological, ecological, chemical, engineering, environmental, physical and social science research applicable to the advancement of environmental policy and regulation, environmental management strategies, and sound approaches to environmental problem solving.

Journal of Psychoactive Drugs is an authoritative peer-reviewed quarterly periodical containing timely information of a multidisciplinary nature for clinicians and other professionals in the drug abuse field, as well as interested nonprofessionals.

Journal of the Air & Waste Management Association is a peer-reviewed, technical environmental journal which serves those occupationally involved in air pollution control and waste management through the publication of timely and reliable information.

Kids Today covers home furnishings & other categories from infant to youth furniture, textiles, decorative accessories, gift, gear and plush or developmental toys.

Long-Term Living provides practical, hands-on information for those in the long-term care industry. Long-Term Living publishes articles that reflect a broad range of long-term care issues: e.g., Medicare reimbursement, regulations, innovative programs and problem solving, financing, new products, staff/resident interaction and care giving.

Lou Dobbs Tonight examines the intersection of finance and the political economy to convey how policy impacts business, markets and corporate America.

NetProspex Contacts Database consists of contact records on B2B professionals in the U.S. and Canada. The records include business card-like fields, including names and titles, company and company address, email addresses, phone numbers, and other value-added fields such as industry classification, company size, URLs, and more.

PM Engineer is the magazine of choice for those involved in the design and specification of plumbing, piping, hydronic/radiant heating and fire protection.

Pollution Engineering covers the air, water and waste environmental concerns in the Pollution Control field. Each issue provides information about regulatory requirements, and business benefits of proactive environmental control for today's engineers and consulting engineers.

Progressive Grocer's Store Brands is designed to help develop and support compelling, differentiated store brand programs. Progressive Grocer's Store Brands provides actionable ideas for maximizing quality and profitability in store brand programs.

Public Roads is focused on developments in federal highway policies, programs, and research and technology. More specifically, the magazine covers advances and innovations in highway/traffic research and technology, critical national transportation issues, important activities and achievements of FHWA and others in the highway community, specific FHWA program areas, and subjects of interest to highway industry professionals.

The Stanza brings you news of Hymn Society events and of members' activities, a forum for opinions and requests for information, and advance announcements of contests, programs, lectures, and hymn festivals.

Sustainable Facility covers integrated high-performance building, optimal energy and resource management in commercial, institutional, and industrial facilities for facility managers, engineers, service providers and jobs alike.

United Kingdom

agendaNi provides in-depth analysis of major policy issues that impact the public, business, and voluntary and community sectors in Northern Ireland. AgendaNi offers an ideal platform for discussion and understanding the key policy and business issues that affect all parts of Northern Ireland.

Aging Health focuses on the most important advances and highlights their relevance in the clinical setting. The journal has been designed to deliver essential concise information—vital for the increasingly time-constrained professional. The audience for Aging Health consists of clinicians, research scientists, decision makers and a range of professionals in the healthcare community.

Airdrie & Coatbridge Advertiser is a weekly newspaper that covers Airdrie, Coatbridge and Lanarkshire in Scotland.

Assembly Automation aims to keep pace with new developments, making it invaluable to engineers and managers who design and apply automation systems in user industries all over the world. The journal offers the latest international information and research reports with an emphasis on practical application, so that engineers and managers can gain immediate advantages on their own assembly lines. In addition to keeping you fully informed on research and developments in automated assembly, the journal also publishes current industry and product news, mini features, Web sites, patents and book reviews, and an events diary.

Dumfries & Galloway Standard published on Wednesdays and Fridays, is a regional publication from Dumfriesshire in Scotland.

Engineering Computations aims to provide a platform for the latest developments and applications of new solution algorithms, innovative numerical methods and solution techniques used in engineering design and practice.

Expert Review of Anticancer Therapy provides expert appraisal and commentary on the major trends in cancer care and highlights the performance of new therapeutic and diagnostic approaches.

Expert Review of Clinical Pharmacology provides a forum for informed debate and critical analysis of all aspects of safety, tolerability, efficacy and therapeutic applications, in addition to covering toxicity issues, adverse reactions, pharmacoeconomics and societal issues.

Expert Review of Molecular Diagnostics provides expert reviews on molecular diagnostic technologies and applied pharmacogenomics in clinical medicine.

Expert Review of Neurotherapeutics provides expert reviews on the use of drugs and medicines in clinical neurology and neuropsychiatry.

Expert Review of Pharmacoeconomics & Outcomes Research provides expert reviews on cost-benefit and pharmacoeconomic issues relating to the clinical use of drugs and therapeutic approaches.

Independent.co.uk is the Web version of The Independent. It concentrates on detailed and extended reporting of the major current stories. It frequently publishes analytical articles written by well-known politicians and other public figures, as well as news reporting and commentary from its own journalists.

Industrial Lubrication and Tribology provides a broad coverage of the materials and techniques employed in tribology. It contains a firm technical news element that brings together and promotes best practice in the three disciplines of tribology which comprise lubrication, wear and friction. It also follows the progress of research into advanced lubricants, bearings, seals, gears and related materials.

Journal of Quality in Maintenance Engineering brings together developments in maintenance and quality that are of interest to both practitioners and researchers and plays a crucial role in minimizing process variability and sustaining process stability—the essential ingredients of product quality.

Microelectronics International provides an authoritative, international and independent forum for the critical evaluation and dissemination of research and development, applications, processes and current practices relating to advanced packaging, microcircuit engineering, interconnection, semiconductor technology and systems engineering.

Pharmacogenomics is a peer-reviewed journal of reviews and reports by the researchers and decision makers closely involved in this rapidly developing area. Pharmacogenomics focuses on those aspects that have the most direct relevance to the pharmaceutical industry and wider clinical community, including: the emergence of new pharmacogenomic initiatives and their impact on R&D and regulatory strategies; emerging technologies for accessing and exploiting genomic information; reviews of genotyping and clinical data in particular therapeutic areas; and development of novel diagnostic products and strategies.

Rapid Prototyping Journal provides industrialists and academics with essential information regarding research into the development and application of rapid prototyping and related technologies. The journal concentrates on rapid product development in a manufacturing environment but applications within other areas, such as medicine and construction, are also covered.

[Scottish Industry/Science Partnership](#) provides a means whereby topics of common interest to both the Scottish fishing industry and the Scottish Executive can be researched in greater depth or wider scope or at a faster rate than would be possible under existing funding of Fisheries Research Services through the Scottish Executive.

[Statistical Bulletin. Fisheries Series](#) presents statistics obtained from returns of an annual questionnaire sent to the proprietors and occupiers of salmon and sea trout fisheries under the provisions of section 64 of the Salmon and Freshwater Fisheries (Consolidation) (Scotland) Act 2003. The information presented in the bulletin is the summation of these reports.

[Stirling Observer](#), published on Wednesdays and Fridays, is a regional publication from Stirlingshire in Scotland.

[thetimes.co.uk](#) is the web version of The Times of London. Long considered the UK's newspaper of record, The Times is generally seen as a serious publication with high standards of journalism and editorial content.

[Wishaw Press](#) is a regional weekly newspaper that covers North Lanarkshire, Scotland.

Latin America

[Journal of Urban and Environmental Engineering](#) provides a forum for original papers and for the exchange of information and views on significant developments in urban and environmental engineering worldwide. The scope of the journal includes: water resources and waste management, construction and environment, urban design, and transportation engineering.

[Latino Business Review](#) is designed for business professionals throughout Latin America and provides information on all business-related issues including technology, operations, finance and leadership.

Europe

[L'Agefi Actifs](#) is a weekly review that provides reports and case studies for accounting, lawyer, broker, retirement, agents, and management occupations. French language.

[L'AGEFI - Biographies](#) contains professional profiles and guides to over 12,000 leaders of French businesses (industries, financial services, services and consulting) specifying their age, their formation, their professional journey, as well as their professional details. French language.

[L'Agefi Hebdo](#) is a weekly magazine dedicated to provide the professionals of the finance industry with expert opinions, thematic files, and analysis based on the current events of finance. French language.

[L'Agefi Quotidien](#) provides current news and events for the financial and trade industry to the international press. French language.

[L'Annuaire de la Finance](#) is an annual guide to all the major players of the finance industry in France. French language.

[Archives of Polish Fisheries](#) is an international journal for scientists engaged in all aspects of fish and fisheries research, both freshwater and marine. The journal publishes research articles, short communications, reviews and monographic papers.

[Bulletin of the Transilvania University of Brasov. Forestry, Wood Industry, Agricultural Food Engineering. Series II](#) is focused on forestry, wood industry and agricultural food engineering research.

[Business Review Europe](#) is designed for European business professionals and provides information on all business-related issues including technology, operations, finance and leadership.

[Carpathian Journal of Electronic and Computer Engineering](#) publishes scientific works, in international purposes, in different areas of research, such as: embedded systems, computer, electronic, automation and electric engineering.

[Der Neue Kämmerer](#) is a newspaper that covers the management of public budgets, investments, property and processing, making it the ideal publication for public-sector financial officers. It focuses on all aspects of public-sector management with an emphasis on the municipal level. The publication provides information about the latest approaches to improving difficult municipal budget situations. Innovative solutions for financial and budget management are presented along with strategies to modernize and increase administrative efficiency. German language.

[Electronic Green Journal](#) is a peer-reviewed digital journal providing open access to scholarly, international environmental information.

[Frankfurter Allgemeine Zeitung](#) is one of the most important and influential German daily newspapers in the world. It is distributed in 120 countries around the world and is a reference tool in business circles as well as among intellectuals, the latter especially appreciating its literary supplement called "Feuilleton." German language.

[ITAR-TASS](#) is a publication of ITAR-TASS News Agency, the successor to the Soviet TASS news agency, which was renamed in 1992 when Russia proclaimed its sovereignty following the collapse of the USSR. It has retained its status of being the state central information agency and has more than 130 bureaus and offices in Russia and abroad. ITAR-TASS also cooperates with more than 80 foreign news agencies. It provides quick and full coverage of all kinds of events shaping Russia and the world.

[La Lettre Sud Infos](#) is a weekly economic newsletter. It provides coverage of businesses and the overall economy in the Cote d'Azur region of France. French language.

Africa/Middle East

[24*7 News](#) covers business, banking and finance, Islamic banking, insurance, Islamic insurance, real estate, politics, petrochemicals, and more in the kingdom of Bahrain.

[Afghan Islamic Press](#) is an independent Afghan news agency that distributes news reports from correspondents in towns and cities throughout Afghanistan. They have maintained their independence by financing their journalism entirely through commercial activities and have refused all funding from any government, non-government organization, western or Arab institutions. It is published in Kabul, Afghanistan.

[African Business Review](#) is designed for business professionals in Africa and provides information on all business-related issues including technology, operations, finance and leadership.

[African Manager](#) is an online business and financial news website, updated daily, focused on Africa and the Middle East and published in Tunis, Tunisia. French and English language files are available.

[Al-Alam News](#) is the English website of Al-Alam and,

in addition to covering the most important global developments, presents the English-language version of top stories broadcast by the Arabic-language Al-Alam satellite television. The channel strives to promote global cultural understanding and provides information about Muslims around the world, particularly in the Middle East region.

[Amcham Egypt Project News](#) is published by the American Chamber of Commerce in Egypt and provides access to information about selected projects and news about diverse business opportunities published in prominent Egyptian newspapers. It is published in Cairo, Egypt.

[Amcham Gulf Cooperation Council \(GCC\) Project News](#) provides access to information about selected projects and news about diverse business opportunities, published in prominent newspapers covering the GCC region. It is published in Cairo, Egypt.

[Arab Finance](#) offers online trading and up-to-the-minute market news with a main focus on the Egyptian market.

[Bakhtar News Agency](#) is a leading independent news agency in Afghanistan, providing daily coverage from across the country in Dari, English and Pashto languages. It maintains multiple provincial bureaus and a network of reporters nationwide and overseas with in-depth local knowledge, and covers internal news, politics, education, culture, health, sports, security, social and the economy. It is published in Kabul, Afghanistan.

[Civil Engineering: Magazine of the South African Institution of Civil Engineering](#) is a peer-reviewed, technical journal that is very relevant to the broad-ranging civil engineering field.

[Communicate](#) is a monthly magazine that covers media, marketing and advertising in the Arab world and beyond. It provides in-depth news and analysis for professionals in the marketing, advertising, PR, and broader media and communications industries. It is published in association with Advertising Age, widely regarded to be the must-read publication among international advertising, marketing and media professionals. Communicate is published in Dubai, UAE.

[Daru](#) publishes peer-reviewed original research articles in pharmaceutical sciences. The editorial boards of Daru specialize in different areas of pharmacy.

[eMarrakech](#) is a daily online news magazine which covers

the news in Morocco and the surrounding Mediterranean, and is published in Marrakech, Morocco. French language.

Forward is a monthly variety magazine with a focus on business, politics, arts and media and is published in Damascus, Syria.

Gulf Marketing Review is an authoritative and reliable information source for marketing professionals operating across the Middle East. It is published in Dubai, UAE.

Gulf Oil & Gas focuses on the oil & gas industry in the eastern hemisphere and provides news and project information to executives and professionals in the industry. It is published in Cairo, Egypt.

Gulf Times is a broadsheet focused on national and international news, business, politics, entertainment, culture and sport. It is published in Doha, Qatar.

Identity is the Middle East's first interiors, architecture and property magazine dedicated to contemporary design. The magazine offers readers the very latest in design news from all over the world and is considered to be a must-read in the region and beyond for architects, interior designers and design aficionados. It is published in Dubai, UAE.

Khaama Press contains news related to business and economy, politics, sports and industry in Afghanistan.

Kuwait Times is a broadsheet-sized newspaper that covers local news, business, finance, sports and features and is published in Kuwait City, Kuwait.

L' Orient-le Jour is a daily independent newspaper from Beirut, Lebanon, which covers politics, local and international news, finance and economics, culture, entertainment and sports. French language.

ME Movies is a website for movie-goers with one-click access to the latest news, reviews, schedules and promotions related to movies and television in the region. It is published in Abu Dhabi, UAE.

Middle East Gamers is the largest English-language gaming website in the Middle East. The website is updated daily by a team of seasoned video game enthusiasts with games journalists contributing. Middle East Gamers was voted as the Best Games Media Website at GAMES 08, the largest gaming exhibition in the Middle East. It is published in Abu Dhabi, UAE.

The Middle East Reporter is a Beirut-based monitor of news reports, editorials, commentaries and public opinion trends as they are reflected in the Arabic-language media.

The National is Abu Dhabi Media Company's first English-language newspaper and tells the story of the Middle East as seen through the region's eyes. Published in Abu Dhabi, UAE.

Press TV is the first Iranian international news network, broadcasting in English on a round-the-clock basis. It is extensively networked with bureaus located in the world's most strategic cities. It is published in Tehran, Iran.

Scientia Iranica. Transaction A, Civil Engineering has, as its main objective, the publication and dissemination of original research in the field of civil engineering.

Scientia Iranica. Transaction B, Mechanical Engineering has, as its main objective, the publication and dissemination of original research in the field of mechanical engineering.

Scientia Iranica. Transaction C, Chemistry, Chemical Engineering is divided into two sections: chemistry and chemical engineering. The initial section has, as its objective, the publication and dissemination of original research work in the field of chemistry, which includes all aspects of applied and theoretical chemistry. The latter section has, as its objective, the publication and dissemination of original research in the theory and practice of chemical engineering, which includes kinetics, catalysis, reactor design, process modeling, simulation and control, thermodynamics and phase equilibrium, transport phenomena, polymer science and engineering, biotechnology and biochemical engineering, environmental engineering, and petroleum reservoir engineering.

Scientia Iranica. Transaction D, Computer Science & Electrical Engineering is divided into two sections: computer science & engineering and electrical engineering. The initial section publishes and disseminates original research works in the fields of computer science and engineering, including artificial intelligence, compilers, computer architectures, computer dependability and security, computer networks and distributed systems, data management, design automation and configurable computing, digital signal processing, embedded systems, operating systems, processor and system architectures, real-time systems, soft computing, software engineering,

theoretical computer science, and verification, test and design. The latter section presents and distributes original research works in the field of electrical engineering which includes information theory, encryption secure communications, wireless communications, satellite and radar, control systems, quantum electronic devices, microelectronics, RF integrated circuits and systems, biomedical engineering and imaging, power electronics, energy management systems, photonics, nanophotonics, electromagnetic, antenna and propagation, optical networks and communications, and communication theory, and data networks.

Scientia Iranica. Transaction E, Industrial Engineering publishes and disseminates original, quality articles reporting recent advances in industrial engineering theory, techniques, methodology applications and practice. It fosters the exchange of ideas between engineers and researchers around the world and also those who emphasize different aspects of the foundations and applications of the field.

Sport360° is a daily English-language sports newspaper that offers comprehensive global sports coverage in the United Arab Emirates.

Sudan News Agency (SUNA) is the official government news agency of Sudan and is published in Khartoum, Sudan.

t-break Tech is dedicated to consumer technology and gadgets. It's a Web site that features news, reviews, blogs, in-depth articles focused on the latest consumer trends in technology, and is published in Abu Dhabi, UAE.

From Al Bawaba—49 titles in Arabic language

African Manager is an online business and financial news website, updated daily and focused on Africa and the Middle East. Based in Tunis, Tunisia.

Agence Maghreb Arabe Presse (MAP) is the official government news agency of Morocco. Based in Rabat, Morocco.

Agency Tunis Afrique Press (TAP) is the official government news agency of Tunisia. Based in Tunis, Tunisia.

akhbar-alkhaleej.com is the online version of Akhbar Al Khaleej, the leading Arabic daily newspaper in the Kingdom of Bahrain. The site is updated daily with the latest local and international news and is accessed throughout the Middle East by an average of 348,000 visitors per month, mainly coming from the countries of the Cooperation Council for the Arab States of the Gulf: United Arab Emirates, Oman, Bahrain, Qatar, Kuwait and Saudi Arabia. Based in Manama, Bahrain.

Al-Alam News website reflects the policies of Al-Alam satellite television. With newsrooms in Tehran, Beirut and Baghdad, the channel's main objectives are speedy, accurate and on-time dissemination of news; reviving mutual understanding, cooperation and solidarity among Muslims on the basis of common cultural identity; creating an appropriate climate for dialogue for the sake of greater global cultural understanding; and providing information about the latest situation of Muslims around the world, particularly in the Middle East region.
