

Immediate access to the latest legal updates using the innovative Lexis Red™ application

Lexis Red™ helps ORIX save time, save money and conduct legal research more efficiently

Mark Fan
Senior Executive Director

Andrew Pang
Manager, Executive Office

Accessing Lexis Red™ on various practice area, including Company Law, Securities Law, Banking Law, Conveyancing, Employment etc.

- Needed up-to-date and efficient access to a broad range of legal information
- Can now access essential looseleaf titles in an easy and cost effective manner, at the click of a mouse

The Hong Kong ORIX Asia team provides support to ORIX businesses across the globe, in diverse areas such as asset financing, acquisition financing and private equity. To provide effective support they need quick access to up-to-date Hong Kong legal information on many areas of the law including corporate law, financial services and employment.

“ *We are involved from the start of every investment project, e.g. NDA, investment structuring, terms’ definition. As the project progresses we might be looking at things like liquidation.* ”

Throughout this process the team uses Lexis Red™ to provide on-the-go access to legal information

“ *As our business coverage is so broad, we use Lexis Red™ to easily access a range of legal content. e.g. company law, the banking ordinance, litigation, employment, Cap 32 winding up. And then more niche areas like financial assistance re conveyancing e.g. section 275 of 622* ”

The ORIX team uses their computers to access Lexis Red™ on a daily basis. After a quick internet search or discussion with colleagues they will go directly into Lexis Red™ and search for the relevant section, using the powerful search engine to quickly identify important information. They then use the hyperlinked cross-references to jump between relevant sections, saving time and finding the answers they need, faster.

“ *As we are in the bank industry, we must run a cost-benefit analysis for every purchase to ensure a cost benefit to the company. Lexis Red™ passed with flying colours* ”

One of the key benefits that they see from using Lexis Red™ is the automatic content updates. Whenever there is an update to a title it is indicated on the home screen, and can be added to the title at the click of a mouse. This means that they are provided with an up-to-date library of foundational content, essential for best practice research.

“ *I worked out that if I subscribed to all my looseleaf titles in Lexis Red™ instead of print I would save in the region of 20,000 to 30,000 hkd* ”

Lexis Red provides digital access to a wide range of LexisNexis titles, with timesaving tools including highlights, annotations and powerful search.

To learn more about Lexis Red please visit
www.lexisnexis.com.hk/lexisred or call +852 2179 7888

Lexis Red™ is an innovative referencing tool that provides online and offline access to your entire looseleaf library, at the touch of a button or swipe of a screen.

Benefits of Lexis Red™

Your digital bookshelf

Effortlessly carry your entire legal library on your iPad or laptop.

Stay nimble

Improve your ability to respond to matters in real-time with auto-updated content.

Make it personal

Features include the ability to annotate sections, search, highlight and copy, paste and share text.

Be productive

Save time with our powerful search functionality, in-product linking and seamless access to further research.

Legal define

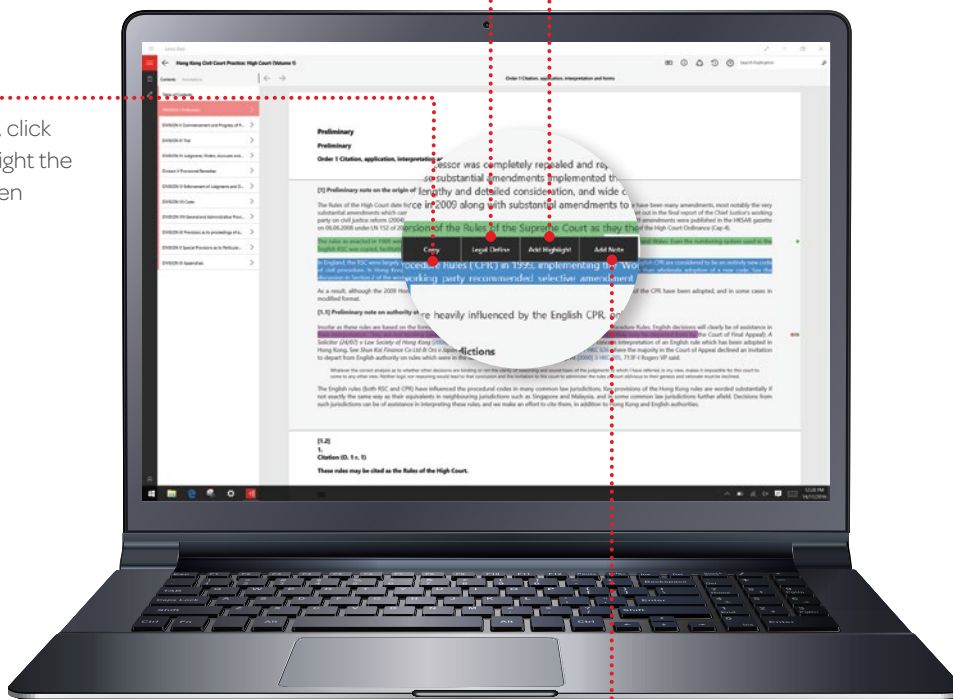

To find the legal definition of a word tap and hold the word, then select **'Legal Define'**.

Adding a highlight

To highlight, click and drag the desired word/s, then right click with your mouse and select **'Add Highlight'**.
NOTE: If you add a tag to this highlight, the colour of the highlight will change to the colour of the first tag of the tag screen.

Copying Text

To copy the text, click and drag to highlight the text you need then select **'Copy'**.

Adding a note

To add a note to a highlighted section of text, click on any word in the highlighted section and then click **'Add Note'**. A note screen will pop up for you to type your notes – they will be autosaved. Click outside of the annotation screen to continue reading.
