Deliver: print, download and email

Use the same, easy-to-remember delivery icons in the same screen locations across Nexis. Look for these icons at the top of your results lists, TOC pages and full-text documents. (Actual configuration may vary slightly to fit the task. For example, full-text documents won't include the "red number" or "Select all" boxes.)

Delivery is simple and flexible because you can deliver:

- **One or many documents at once.** To deliver:
 - One document: As you view the full text, select the **Delivery** icon. Choose delivery method.
 - Multiple documents: **Select the checkbox(es) next to the document(s)** in a results list, even moving among content types. **Select multiple documents from a TOC display** or a *Shepard's* report. The red box shown with the delivery icons keeps count for you. Then select the **Delivery** icon and choose delivery method. **No need to open documents to deliver.**
- **Attachments to documents.** Deliver those valuable attachments, such as PDFs.
- **Lengthy documents fast.** Delivery icons “float” and stay on screen as you scroll lengthy, full-text documents such as cases or annotated statutes. Deliver quickly—without scrolling back to the top of the screen.
- **More than documents.** Print your results list, *Shepard's* citing references and lists of your Folder documents or Alert searches. Even deliver your Research History Map! You can also use the **Printer-friendly view** icon and your own device print functions.
- **Documents to Dropbox®.** This functionality is widely available. If you do not see the Dropbox icon (shown above) in your delivery options, check with your Nexis account administrator or your LexisNexis representative.
- **Printed research from most browsers** like Safari® or Chrome™. No plug-ins are needed.
- **Investigate further—fast—**after you download or email documents, link back to the document at Nexis from the cover page of your document.

Plus choose from many delivery options—and save a step later.
