

Lexis® Web search widget installation instructions – 062609

Images

These are the images you need, you will find them in the **/images** folder:

- [images/bg-gradient.gif](#)
- [images/logo-lexis-web.gif](#)

Copy these files to the **/images** folder on your site.

CSS file

This is the CSS file you need to copy, you will find it in the **/css** folder:

- [lexis-web-widget.css](#)

Copy this file to the **/css** folder on your website.

NOTE: *If you're saving your images in a folder different than **/images** or on a different path, you will need to update this CSS file.*

HTML

You will need to *view the source* of the HTML page.

Copy all the code within the following HTML comments (you can include the comments if you want for easy reference in the future):

```
<!-- Lexis Web widget starts -->
...widget html code
<!-- Lexis Web widget ends -->
```

Paste the selected HTML code on your page.

Final step

Upload the images, CSS file and the HTML pages you placed the Lexis® Web widget in to your server.
