

Now faster & more flexible

# LexisNexis® Account Monitoring

## Decisive actionable results from automatic alerts

### Be the first to know updated account information.

Getting the right information at the right time is a key part of efficient, effective collections within the fast-changing debtor environment. But repeatedly submitting accounts with the hope of keeping up with debtors is a time-consuming task that can impede your workflow and affect your bottom line.

Now, LexisNexis® Account Monitoring integrates seamlessly with your current batch application, so you **automatically receive daily updates on telephone numbers, addresses and emergence from bankruptcy filings directly from the source, rather than from “self-reporting” data.** No need to resubmit accounts or whole portfolios. Account Monitoring maintains files of your portfolio and sends alerts for the changes you specify.

#### Monitoring is available for...

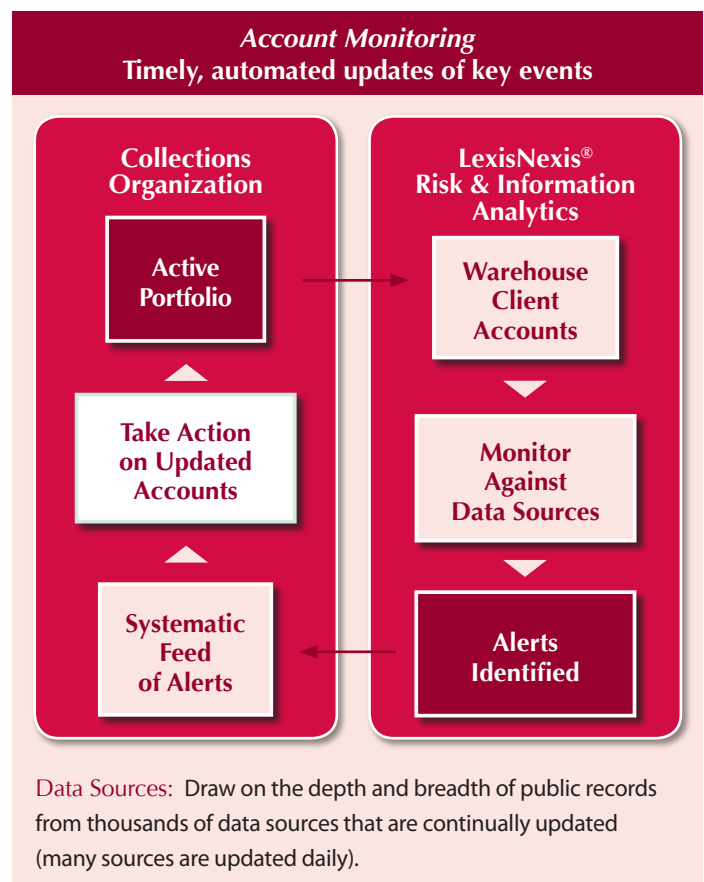

- Phone Numbers
- Addresses
- Bankruptcy Filings
- Deceased Notification

With LexisNexis Account Monitoring, your collections workflow can improve your **ROI – Return on Information** – by enabling you to benefit from our:

**Timeliness:** Being the first to contact a debtor enhances collection opportunities.

**Flexibility:** Submit a complete portfolio or focus on select accounts by type or debt amount; choose to receive all or specific data.

**Cost-Effectiveness:** Pay for new information only.

# Timely, flexible, dependable reporting enhances the collection process

## Account Monitoring Scenario

John D. is the owner of a construction company that fell victim to the housing slowdown. When he lost his company, he became delinquent in paying his bills.

**Automated updates increase contact rates and maximize collections.**
