## Matthew Bender Treatises

[Nimmer on Copyright®](#) – This definitive work on copyright law is a rich resource for the expert, as well as the practitioner just beginning to explore the arena. The easy-to-follow Nimmer on Copyright treatise offers extensive analysis covering specific media such as printed works; plays and motion pictures; music; artistic property; and digital technological developments such as copyright protection systems and the internet, interpretation of all provisions of the Copyright Act, and thorough coverage of the Digital Millennium Copyright Act.

[Associates Guide to the Practice of Copyright Law](#) – Associates or soon to be legal practitioners are guided through what is typically the most challenging part of their job; knowing where to find information and what specifically they need to complete a particular task or assignment. Written by a senior associate and a supervisory partner, the authors rein in the work process for associates and give practice-oriented advice on important topics such as what questions to ask a client; what research to conduct; what elements must be met for various causes of action; the potential repercussions for various actions; and the proper alternative to be considered. Sample documents and pleadings are included with references to secondary sources and key cases in copyright law.

[International Copyright Law and Practice](#) – This practice guide integrates the global analysis of international copyright law with in-depth chapters on national laws. You will find answers to common and complex international copyright law questions like: what laws apply in cases of cross-border infringement; on what grounds may protection be based in such cases; which treaty or domestic provisions govern which issues; how to obtain civil, criminal and administrative remedies; and more.

[Forms from Nimmer on Copyright](#) – Nimmer on Copyright contains outstanding litigation forms provided by top intellectual property litigators and state-of-the-art transactional forms with side-by-side commentary written by leading copyright law practitioners.
