

# Intellectual Property Research

From researching to drafting, and everything in between, new intellectual property law associates have a lot on their plates. Lexis+™ has tools and resources to help you save time, be more productive and deliver superior work product.

## Top three tips:

# 1

### MATTHEW BENDER TREATISES

When researching an unfamiliar topic or area of law, start with a Matthew Bender treatise. Treatises are straightforward and easy to understand, and are annotated with links to supporting resources, such as cases and statutes.

# 2

### PRACTICAL GUIDANCE STATE LAW COMPARISON TOOL

When presented with a question involving more than one state jurisdiction, the Practical Guidance state law comparison tool provides information across multiple jurisdictions with a few mouse clicks, including links to the applicable statutes and regulations.

# 3

### PRACTICAL GUIDANCE FORMS AND CHECKLISTS

Forms and checklists in the Lexis+ Practical Guidance tool are actual work product used in practice by attorneys. These materials provide an excellent starting point for your project. The forms and templates can be easily edited to suit your particular drafting assignment.
